

INTENZE COLOURS - Mario Barth Gold Collection

“Mario Barth has been personally developing this product for five years, and he is proud to say that this advanced pigment is the first pigment made sterile without the use of radiation, and has been certified by an accredited laboratory to still be considered sterile after one year in the bottle.” - Patent Filed

INTENZE COLOURS - Bowery Stan Moskowitz Set

This 8 color pigment set was matched by tattoo legend Bowery Stan Moskowitz to be the true colors that he used while tattooing down on the Bowery.

According to Stan “The pigments in this box set are the true colors we used down on the Bowery, and my way of saying ‘thank you’ to my father and Jonesy by keeping these traditions alive.

If you are looking to do real Old School style tattoos, then you should only be using these colors and that’s it”
